Dear Student or Youth –

Do you believe in “truth in advertising”? We hope and assume so.

Clearly there needs to be ‘truth in advertising’ regarding the military experience and rewards. It does not serve either the military or our youth for someone to commit eight years of their life to the military based on one-sided information and promises.

If you are considering joining the military this will be one of the most important decisions of your life. The information enclosed is intended to help in that process by providing another perspective and reality.

We hope this is useful to you.

If you have questions or wish further information feel free to contact us at the number below.

With best regards,

Youth and Military Committee
